### TECHNICAL DATA

#	Working Load Limit	Closed Height	Raised Height	Overall Length	Overall Width	Platform Width
LT1108	2,500 kg	110 mm	995 mm	1,966 mm	1,950 mm	460 mm

LT1108

### TRUCK RAMPS

- Handles slide out & wheels drop down for easy manoeuvrability and positioning of ramps.
- Handle slides away to safely remove a potential trip hazard.
- Flared lip protects the wheels from damage, and assists the vehicle from not driving off the top of the ramp.
- Ridges on ramp platform to ensure maximum tyre grip when loading and unloading.
- Rubber sheets attached to the base of the ramps to reduce slippage
- LTR10 suitable for steer and dual wheels
- LTR16 suitable for super single wheels.
