

GARAGE JACKS

GARAGE JACKS

Masada Garage Jacks are manufactured in Japan to the highest quality standards. Masada jack are designed with a foot pedal-pumping device to raise the saddle to the load quickly. Rear wheel castors are fitted to balance the weight of the jack enabling the operator to move the jack in any direction using the lockable handle and footplate on the rear of the jack. Featuring a frame designed for strength and safety.

- Sold and Serviced in Australia for over 40 years.
- Tested and compliant to AS 2615-2016
