

WHEEL DOLLY

The 777A Wheel Dolly is manufactured with a heavy duty wide frame and lifting carriage to make the removal and refitting of single, dual or super single wheels effortless.

FEATURES

- Offset hydraulic unit allows working access to wheels during removal and refit.
- Hydraulic unit has foot pump and foot release for hands free operation.
- Extra lifting height enables wheels to be placed on balancers or other machines.
- Polyamide coated fixed front wheels and caster rear wheels for better manoeuvrability.
- 3 position adjustment on lifting arms.
- 4 rollers per side for smoother wheel rotations.
- Safety chain for securing load.
- 2 Stud and Nut trays.
- Australian made.
